

ROTATING GRABBER RS1-2130

The dual function grabber combines high strength linear and rotatory actuators. Internal feedback allows precise control of position, velocity and grip force. Lighter, smaller, and more

capable than anything else in its class, RS1-2130 extends the capability of small unmanned vehicles to manipulate and recover objects in cluttered and complex environments.

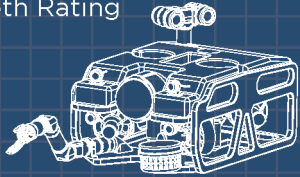

MODULAR
Two Independent Axis

SMALL & LIGHT
40mm OD & 240g

SUBSEA READY
300m
Depth Rating

Mechanical

Rotate 0.6Nm | 60°/s
Force 600N | 2.5mm/s
Accuracy 0.1° | 0.1mm

Electrical

Voltage 18-30V
Power 11W Max
COMS RS232/485

Environmental

Depth 300 MSW
Temp -35 to 35°C
Material AL 6061
